black
1.25 mm

green
1.50 mm

yellow
1.75 mm

white
> 1.75 mm

Needle rings

The HUNZIKER colour coding system allows a safe recognition of the needle height. The plastic bush of each ring is coloured, whereas the colour specifies the height of the needle.

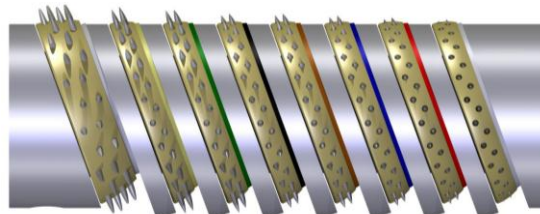

Advantages:

- ▶ identification of height without measuring
- ▶ no danger of confusion in the stock
- ▶ sequence-control of rings on the temples
- ▶ prevention of wrong ordering

Design protected by law:

Both running surfaces of the rings are WHITE and therefore cannot mark the fabric.

design patent[©]

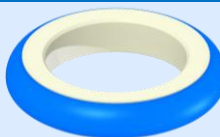

transparent
HARD

Rubber rings

To distinguish between different hardnesses, Hunziker dyes the rubber compound with different colours.

green/brown
MEDIUM

blue
SOFT

Advantages:

- ▶ clear identification of the different rubber ring executions
- ▶ no danger of confusion
- ▶ prevention of wrong ordering
